

# Hammock

The Steiss Hammock sling is a hammock style sling suitable for fitting from a recumbent position only. Made from a cushioned and breathable 3D woven 'Spacer' material with high air permeability, offering high levels of comfort. Suitable for the lifting of amputees following careful assessment.

- ✓ Sling design contributes to minimised pressure points
- ✓ Integrated pommel offers added patient security
- ✓ Colour coded binding indicates sling size
- ✓ Integrated storage pockets for sling straps
- ✓ Coloured attachment loops promote correct/safe positioning
- ✓ Can be customised to fulfil patient specific needs
- ✓ Contoured sides help reduce material interference with seating systems
